CHARLYSE JOBE

Cybersecurity Engineering Student

charlyse.jobe@gmail.com | 06.51.78.39.88 | linkedin.com/in/charlyse-jobe | charlysejobe.github.io | github.com/charlysejobe

PROFILE

Technical profile focused on low-level analysis and offensive security. Engineering student at EURECOM, having classified 3,850 Windows malwares via control flow graph analysis and developed automation tools in Python. Seeking a 6-month final-year internship (starting February 2027) to put these skills to work for a security team.

COMPUTER SCIENCE PROJECTS & EXPERIENCE

Semester Project in Cybersecurity & AI 01/2026 – 06/2026
- Classified 3,850 malware samples through static analysis of Control Flow Graphs (CFG)
- Leveraged code structure to ensure an obfuscation-resilient classification

Tools & Technologies: Python, angr, PyTorch Geometric, Graph Neural Networks (GIN), multiprocessing

IT & Data Processing Internship | EGM 06/2025
- Developed a Python script automating sensor data analysis, metric extraction, and report generation

Web Architecture Project (SwipeFund) 03/2026 – 06/2026
- Designed a web platform with local state management and API integration, focusing on accessibility and code validation

Tools & Technologies: JavaScript, HTML5/CSS3, REST API (Leaflet), LocalStorage, GitLab

IoT Assistive Device for Visually Impaired Individuals 09/2024 – 01/2025
Designed and built an assistive device for the visually impaired. Processed hardware input streams and integrated real-time haptic and audio feedback.
- Integrated camera feeds and sensors with real-time haptic and audio feedback.

Tools & Technologies: Python, Raspberry Pi 4, camera, haptic sensors

TECHNICAL SKILLS

Cybersecurity & Cryptography
Reverse Engineering (Ghidra, angr, x64dbg), Web & OS Security (CTF), PKI, Kerberos, Active Directory

Languages & Scripting
Python, C (Advanced) | SQL (Intermediate) | Bash, OCaml, JS (Familiar)

Systems & Networking
Linux, TCP/IP, DNS, HTTP/HTTPS, Routing, Wireshark, Hardening

Governance, Risk & Compliance (GRC)
GDPR basics, privacy risk analysis, Cloud & Big Data security

EDUCATION

Yonsei University 08/2026 – present
Academic Exchange in Computer Science, Seoul

Eurecom, Sophia Antipolis 09/2024 – present
CTI-accredited engineering school - Admission via IMT competitive exam

CPGE MP2I/MPI 09/2022 – 07/2024
Lycée Janson de Sailly, Paris 16
Intensive undergraduate foundation program in Math, Physics & Computer Science

High School Diploma : Baccalauréat Général (Advanced Mathematics, Physics, Computer Science) 2022
Graduated with Highest Honors (Mention Très Bien) and Jury Congratulations

INVOLVEMENTS & LANGUAGES

Extracurricular Activities
Head of Communications of EURECOM Student Union (BDE) (11/2024 – 12/2025): internal/external communication and event organization

High-Level Sport
Basketball: Pôle Espoirs Normandie and training center partner for USO Mondeville (2019 – 2022)

Mentoring & Transmission
Handimanagement Label, Companieros (2025) · Leisure center counselor (BAFA since 2020) · Private science tutoring (since 2024)

Languages
French: Native | English: Fluent | Spanish: B1 | Korean: A2
