PROFILE

As a computer science engineering student passionate about cybersecurity, I am seeking a 6-month final-year internship starting in January 2027 in Seoul, South Korea or in Paris. My objective is to actively contribute to the protection of your systems and tackle stimulating technical challenges

EDUCATION

Eurecom, Sophia Antipolis MSc in Computer Engineering (CTI-accredited) Admitted via the highly selective competitive entrance exam for IMT engineering schools	09/2024 – present
CPGE MP2I/MPI <i>Lycée Janson de Sailly, Paris 16</i> Intensive undergraduate foundation program in Math, Physics & Computer Science	09/2022 – 07/2024
Handimanagement Label <i>Companieros</i> Disability inclusion in the workplace	2025
High School Diploma : Baccalauréat Général (Mathematics, Physics, Computer Science) Graduated with Highest Honors (Mention Très Bien) and Congratulations from the Jury	2022

COMPUTER SCIENCE PROJECTS & EXPERIENCE

Semester Project in Cybersecurity & AI <i>Classification of 3,850 Windows malware samples using static analysis of Control Flow Graphs (CFGs)</i> <u>Tools & Technologies:</u> Python, PyTorch Geometric (Graph Neural Networks / GIN), angr (Reverse Engineering), Multiprocessing	01/2026 – 06/2026
Web Architecture Project (SwipeFund) <i>Developed a full-stack web application with local state management and REST API integration, while ensuring accessibility compliance and high code quality standards</i> <u>Tools & Technologies:</u> HTML5/CSS3, Vanilla JavaScript, DOM, REST API (Leaflet), LocalStorage, GitLab, GitHub	03/2026 – 06/2026
IoT & Accessibility Semester Project <i>Designed and built an assistive device for the visually impaired. Processed hardware input streams and integrated real-time haptic and audio feedback.</i> <u>Tools & Technologies:</u> Python, Raspberry Pi 4, Embedded Components (Camera, Haptic Sensors)	09/2024 – 01/2025
IT & Data Processing Internship at EGM <i>Developed a Python automation script to analyze sensor data feeds, extract metrics, and generate automated reports</i> <u>Tools & Technologies:</u> Python, Data Analysis, Automation	06/2025

TECHNICAL SKILLS

Cybersecurity & Cryptography Reverse Engineering (Ghidra, angr, x64dbg), Web & OS Security (CTF), PKI, Kerberos, Active Directory	Languages & Scripting Python, C (Experienced) Bash, SQL, OCaml, JS (Familiar)
Systems & Networking Linux, TCP/IP, DNS, Routing, Wireshark, Hardening	Governance, Risk & Compliance (GRC) GDPR Compliance, Privacy Risk Analysis, Legal Aspects of Security, Cloud & Big Data Security

SOFT SKILLS

• Proactivity & Initiative	• Teamwork
• Autonomy	• Analytical Mindset & Technical Curiosity

LANGUAGES

French Native	English Fluent
Spanish Intermediary	Korean Elementary

EXTRACURRICULAR ACTIVITIES & SPORTS

Youth Leadership & Teaching (BAFA Certified) Camp Counselor / Activity Leader (since 2020) and Private Science Tutor (since 2024)	
Head of Communications, Student Union (BDE), EURECOM Managing internal/external communication and organizing large-scale student events.	11/2024 – 12/2025
High-Level Athlete – Basketball • Selected for the Normandy Regional Elite Development Center (Pôle Espoirs) • Training Center Partner at USO Mondeville (Sport-Études Elite Program)	2019 – 2022
